“ When I got divorced, I was thrust into a black hole and spiraled downward. Then something remarkable happened; I became your client. Because of you, I gained a safe haven, a voice, a coat of armor, and hope. Right from the start, you re-humanized me. As time elapsed, you gave me inspiration and determination to reverse the spiral. And if that wasn't enough, through your efforts, you gave me new life! Thank you for all you have done for me, my kids, and will continue to do for others. - AIS Client
